

Did you know that "silver" dental  
fillings  
contain about 50% mercury—a known  
toxin?

**October 3-10, 2005 is  
Mercury Amalgam Awareness Week**

**To raise awareness, the Institute for  
Health Realities is offering the following:**

- A free copy of *Health in the News* on amalgam research to the first 10 people to stop by between Oct. 3-7
- A free copy of the book *Chronic Mercury Toxicity* to anyone who calls between October 3-7 to sign up for a mercury vapor test
- Half off the cost of the book *The IV-C MercuryTox Program: A Guide for the Patient* from Oct. 3-7

**Institute for Health Realities**
